The Provinces.

We glean the following items from the Provincial papers brought by the Panama: On the 13th April, eight houses were destroyed by fire at the Straight Shore, in the Parish of Portland, N. B.

It is proposed in Montreal to erect a monument to the heroes of 1812, on the field of Chateaugay, and get the Prince of Wales to lay the corner stone. A monument to Stephenson, near Victoria bridge, is also proposed.

The firemen of Montreal are going to astonish the Prince of Wales. Two companies from the United States are expected to visit the city with steam fire engines.

The Cape Breton News of the 14th April reports: Captain Brock, of the schooner Martha, belonging to Halifax, arrived here on the 17th instant, and reports the loss of that vessel at Bay de St. Esprit, in Fortune Bay, on the 23rd March. As soon as the vessel struck, she was boarded by a number of fishermen belonging to the Bay, who took possession of the vessel, and plundered vessel and cargo. The hull was afterwards sold for the benefit of the underwriters for a trifling sum.

It is said that the Prince of Wales will not arrive in Canada until August.

Lemuel Owens has been appointed Postmaster-General of Prince Edward Island.

The wife of Jos. Hoover, of Caistor, C. W., cut her throat with a knife 7th April, owing to the fact that she had given birth to a deformed child.

The Ottawa Citizen says the first cargo of stone for the Government Buildings arrived at Prescott from Ohio. From thence it is to be conveyed to Ottawa by railroad. Rents have gone up and houses are now becoming scarce.

C. Griffith, a photographic artist, arrested some time since, on a charge of counterfeiting bills on the Quebec Bank, has been tried and acquitted.

An order has been issued by the Postmaster General of Canada, to all Postmasters in Canada West, relieving them from any further obligations to open their offices on Sunday.

The estimated revenue of Nova Scotia for the present fiscal year is \$737,126; the expenditure is estimated at \$656,692.

Red River settlement is to be erected into a separate independent colony.

MacKenzie's Message proposes that Sir Edmund Head be raised to the peerage under the title of "Baron Doune Shuille."

A stone axe has been found in the centre of an oak tree near St. John, N. B. It must have been struck into the tree more than two hundred years ago.

In well-informed quarters, the opinion prevails that ministers contemplate a general election immediately after the harvest; calculating upon their ability to turn the visit of the Prince of Wales largely to party account. Amidst the "furore" of loyalty, political considerations will carry little weight; and hence Mr. John A. Macdonald's intended coup d'etat.—Hamilton Times.

Late New Brunswick papers contain the details of a late great fire in Woodstock. One hundred and fifty buildings were destroyed in the business centre of the town, including the Commercial and Central Banks, with all their contents; the Post Office, (important contents saved); the printing offices of the Sentinel and Journal; the Mechanics' Institute, all the hotels in the place except one, and about sixty stores and places of business. The loss of property is from £75,000 to £100,000. Insurance from £25,000 to £30,000. Active measures have been taken in the provinces to relieve the sufferers.

R. Southwell, formerly Chaplain in the English army in the Crimea, was killed lately near Montr., by being thrown from his horse in attempting to jump a fence at a fox-chase.

NEW SHIPS OF WAR.—The following new ships are ordered to be commenced at Woolwich as soon as the necessary vacancies occur in the building sheds:—A 91-screw line-of-battle ship, to be named the Caledonia, is to be built on the slip at present occupied by the Anson, now under construction; two screw steam-corvettes, to carry 21 guns each, to be called the Alligator and the Ontario; and a gun-vessel to carry 6 guns. A portion of the keel to commence the Caledonia is already in hand.—London Weekly Dispatch.

GOLD IN CHINA.—Gold has been discovered in the bed of a small stream on the mainland, in the vicinity of Pailo Laza, near Pinaang. A Chinese discovered a deposit of ingots several cwt in weight.—China Chron., April 12th.

News from Fraser River.

ARRIVAL OF THE WILSON G. HUNT.—CONFLICTING REPORTS FROM ABOVE—NEW TRAILS—MINING AT LYTTON CITY—HARRISON LILOOET TRAIL UNDER WATER—THE BRIDGES ALL WASHED AWAY—THE NEW STEAMERS ON THE LAKES, ETC., ETC.

The steamer Wilson G. Hunt, arrived from the river about six o'clock on Saturday evening. About thirty miners came down on the Hunt, principally Oregonians who had been to the Similkameen diggings, and came through by way of Lytton City. They all say Similkameen is a great humbug. Ballou's Express brought down \$10,000; Jeff. Gray & Co., \$6,500; in private hands, \$9,000. Total, \$25,500.

Some men from the Quesnelle mines also arrived by the Hunt. They report diggings in that neighborhood as being far from rich or extensive. A few miners on the Quesnelle river were making from \$6 to \$16 a day; but the pay-dirt was very thin, and in some instances required considerable stripping of the top dirt before the gravel could be reached. Quesnelle river was high, and the claims on low bars were under water.

"Dancing Bill," a well known up-river prospector, had sold a claim (heretofore represented as rich) on the Quesnelle, for \$300—\$300 cash, balance when taken out. The claim was sold by the purchaser to pay only about \$6 per day.

Some good claims above Lake No. 3, (on Quesnelle), were talked of; but we have met with no one who could speak reliably of their richness.

About Lytton City the high-water claims were being worked to advantage, and were paying well. The Chinamen are gradually taking up the claims which white men have deserted, or were buying into sluice-companies. Business at Lytton was good.

A storekeeper on Van Winkle Bar, named Patrick Kilroy, a short time since, while wrestling with a friend, was thrown under and sustained a fracture of the right leg.

The Sappers and 1 Miners have built a good trail around the rock above Port Yale; the trail is 15 feet wide. This is the commencement of the new road to Lytton City from Yale via the river. It is calculated that it will require two years to complete it.

The parties who started to prospect Salmon River, about sixty miles above Port Alexandria, have returned, and report having found gold to exist in such small quantities as not to justify their remaining.

A trader from Fort Alexandria brought down \$2000 in coarse dust, and gives an altogether different account of matters in that region. He was engaged yesterday in buying a stock of goods to take back with him to the Quesnelle River mines.

The Blue Lead, on Horsefly Creek, which was represented as so rich last fall, is paying from \$300 to \$400 per day. The company consists of 13 members. They are all well satisfied with their prospects. Many sluicing claims above the forks of Quesnelle, were doing well. Mr. C.'s dust is in pieces weighing from three cents to \$1.50. Flour at Alexandria is \$35 per cwt; beans \$36. lb; bacon, 60c.; china sugar, 40c.

The trail over the Harrison-Lillooet route is under water, owing to heavy freshets. The bridges have all been carried away, and the prospects are that some time will elapse before any goods are taken through by that way.

The new steamer on Seton Lake is completed, and had made an excursion trip on Sunday the 3d inst. She works well and gave entire satisfaction.

The Governor was at Yale. He has given out a contract to Frank Way and Co., to cut a mule-trail from Yale to Spuzzum, via the river. The trail from Hope to Boston Bar was being improved.

A ditch was to be brought on to Cayoosh Flat; the water being supplied from Seton Lake.

Mr. Myers, of Myers & Co's. Express, sends us the following from Port Douglas:

Some men have arrived at Cayoosh Flat, who wintered at Quesnelle River; they report having got even with the country.

L. P. Beach has commenced laying a railway between Lake Anderson and Lake Seton, to facilitate the transportation of goods.

Mr. Myers reports the trail in many instances as having been overflooded by water, and says he had to swim several creeks.

The steamer Champion, just completed, will be able to make four trips a-day across Seton Lake. She is a fine little boat, and very fast.

The Anderson Lake boat will be launched in a few weeks; she is a splendid model. The owners are Chapman & Co.

The Lillooet Lake steamboat was to have been launched on Saturday last, June 9th, with all her machinery on board. Her owners are Golding & Co.

LIME AND WATER.—In Thames water, and most of the waters furnishing the London supply, lime is found in the proportion of about 16 grains to the gallon. In a million gallons exists a ton of lime. The daily supply is about 80 million gallons, so that 30,000 tons of lime is about the quantity pumped into London with its year's supply of water. A mountain of lime that would make mortar enough to build a superb! Lime injures the coats of the stomach when we drink the water that contains it; when we wash with such water, it cures soap and takes away the beauty of the skin. Grooms and trainers take good care to give soft water to their horses and dogs. There are training-stables on the chalk-downs, for the sake of the turf and the quiet; but large tanks are formed in which to store rain water for the use of the horses. However far away the animals may go to their races, the soft water is sent with them and supplied to them daily. Even a change of water is avoided. One drink of hard water would put the favorite horse out of condition, make his coat "stare," and destroy his chance of being winner of the Derby. Yet, knowing all this, we ourselves, with a curious obstinacy, stick by the hard water, drink it, and wash in it; and, to defeat our great enemy, let us engage the strong upon our side; ladies should know that pure soft water is the true beauty wash, and that there is no cosmetic that will counteract the bad effect of hard water on the complexion. Her Majesty's adviser, Sir James Clarke, ordained, some years ago, the use of distilled water at the Royal toilet.—Dickens's All the Year Round.

GREAT FIRES AT NEW ORLEANS.—The Brooklyn Warehouses, in the Third District, were totally destroyed by fire on the night of the 2d May. Loss, \$61,000. On the morning of the 3d May a fire broke out on Greatmen street, in the same city, and before it could be subdued, destroyed property valued at \$150,000. Fifty buildings were burned.—N. O. True Delta.

EDUCATIONAL.

Collegiate School for Boys, VICTORIA.

VISITOR—The Bishop of Columbia and Vancouver Island.

HEAD MASTER—The Rev. A. C. Garrett, B. A.

THIS SCHOOL WILL BE OPENED (D. V.) on MONDAY, the 28th inst., in the Collegiate School Room on Church Way. It will be conducted on the plan of the Grammar Schools of England, and is designed to qualify for the Learned Professions, Commercial and Mercantile pursuits, and the Universities.

The course of Education will comprise Religious and Moral Training; the English Language in all its Branches—Reading, Grammar; Penmanship, Geography, History, Composition, and General Literature; the Classics—Greek and Latin; Modern Languages—French, Italian and Spanish; Arithmetic and Book-keeping, Mathematics, the Elements of Natural Philosophy and Drawing.

Boys will be admitted from the age of seven and upwards. School Fees are fixed for the present at \$100 per annum, payable quarterly in advance.

There will be two vacations in the year. Pending the arrival of a complete supply of School Books, Maps, Globes, Diagrams, etc., now on their way from England, boys will be required to provide their own Books. When these books actually come to hand, they will be issued to the pupils at moderate prices.

Prospectuses and further information may be obtained by application to the Rev. A. C. GARRETT, Fort street, Victoria.

N. B.—Arrangements will be made, as soon as practicable, for the accommodation of Boarders in Private Families, carefully selected. my22 1m

REMOVAL.

Select School, Broad Street.

NOW OPEN.

MRS. MALLANDAINE HAS REMOVED her School to commodious premises, next door to the Clifton House, Broad street; which offer the advantages of a roomy play-ground and gymnastic apparatus—swinging rings, horizontal and parallel bars.

All the usual Elementary and more advanced branches of an English Education, French and Drawing, to which it is proposed to add the study of Latin and Greek, the Spanish and German Languages, and Music; for which competent Assistant Teachers will be secured.

Hours.—Present hours half-past 9 till 3. TERMS.—Average, \$10 per 13 weeks; monthly, about \$4—payable in advance. For the branches of Education last named above, \$1 50 per month extra.

EVENING SCHOOL.

For Adults, as usual, half-past 6 till 9 p. m. Terms as Day School.

PRIVATE LESSONS on Saturdays. Parents and Guardians (or their agents) in Victoria, British Columbia and California, are respectfully requested to call for Prospectuses, to be had on application.

Messrs. les Freres sont invites a faire un cours d'Anglais le soir; et a envoyer leurs enfants chez M. Mallandaine. my17 1m

Tuesday Morning, June 12, 1860.

Our Fourth Volume.

The first number of our fourth volume commences with to-day's issue. Three volumes are closed, extending over a period of eighteen months. During that time, the history of the Colonist is the history of the country. It has been identified with every local question that has commanded attention, and at the end of every volume we have found it more and more a popular favorite. We have steadily endeavored to merit public confidence, as an independent journal, owing no allegiance to any party—turning neither to the right nor to the left to please anybody, through fear, favor or affection, and never shrinking from the performance of a duty, no matter what consequences were apprehended.

From the generous support experienced in the past, we have no hesitation in saying that no journal in these colonies has ever enjoyed so large a share of the confidence of an intelligent public as the British Colonist. It is a full year older than any other paper here, and yet every other journal ever published here has been fed on government or party more or less for support, whilst we have never drawn a single dime from any other source than our subscription list, our advertising patronage, and our job office. The only distinction we have sought for the Colonist is to be a faithful tribune of the people. That has been achieved, and it is acknowledged the best newspaper to-day in the two colonies.

If an intimate knowledge of the country, its wants and its feelings, acquired after two years' experience, can be turned to good account, we hope to render our fourth volume of far more interest to the merchant, the farmer, the politician, and the public in general, than any that has preceded it.

As an advertising medium, the Colonist is the best in the country. It is read wider and more sought after than any other paper, and consequently more deserving of advertising patronage. Attached to the newspaper office we have a superior Job office, and are prepared to do job work cheaper and with more dispatch than at any other establishment in the two colonies.

The Mining News.

On our first page will be found a complete summary of the news from the mining regions of British Columbia. The intelligence is very conflicting in its character, and would seem to indicate that the mining resources of our sister colony are destined to remain an unsolved riddle for at least two months to come. The strong belief we have heretofore entertained of the richness of Quesnelle River and the upper Fraser, is strengthened from the fact that large quantities of gold dust are almost daily reaching town, notwithstanding the discouraging reports brought down by returning miners.

We have seen in 1859 just the same results after a rush to the Canoe country. Two thousand miners, in the spring of that year, made their way back to California, many of them, "dead broke," declaring that British Columbia, as a gold-producing country, was most emphatically "gone in;" and no amount of encouraging newspaper articles, or glowing epistles from correspondents to their friends in the "Golden State," could ever galvanize it into life again, or induce another rush. But what proved the rule in the fall of the same year! Did not the well-filled purses of hundreds of intelligent miners who wintered in Victoria, and at the towns on the Lower Fraser, fully attest the fallacy of all such assertions? And the fact that these hard working miners were in haste to leave us for the claims from which they had been driven by the severity of a northern winter, went a long way to re-assure us all that a bright future was in store for the country.

As yet we have seen no reason to change our oft-expressed opinions in regard to the resources of British Columbia. On the return trip of every steamer from New Westminster, thousands of dollars worth of the yellow metal is brought to town, in exchange for the merchandise which has been taken up to supply the hardy prospectors. The mere fact that a few hundred miners are said to be on their way down, proves nothing. None of the pioneers in the Quesnelle region have as yet made their appearance. On the contrary, nine out of every ten men arrived on the last steamer, were Oregonians, who had come to the Similika-

meen Valley; and the large majority have never even seen Fort Alexander, let alone sticking a shovel into the ground. Some there are, however, who have undeniably visited Quesnelle River, but we incline to the opinion that their observations must have been very superficial, as the short time they have consumed on the trip would hardly afford an opportunity of thoroughly prospecting the new region.

In the summer of 1858, we saw men who had visited the Fraser for the purpose of mining, reach different points, and often after taking a look around, start for the nearest mining camp, sell their tools and "grub," and jumping into their boats, leave the country, cursing their stupidity for ever having visited it. Yet we know that those who remained on the river during that year, and worked, had no cause to regret their stay. The fall of the same year saw claims on Hill's, Texas, Emory's and other bars selling for a mere trifle—the owners supposing they were worked out, and thinking themselves doing well if they got them off their hands at any price. But the sequel has shown that they were mistaken, as the well-known richness of the Lower Fraser, during the succeeding season, was fully established. In short, there was never a rush to any portion of a gold country that at least one-third of those engaged in it did not return dissatisfied. Take the history of California or Australia as an example, and we find that in the face of the most discouraging and conflicting accounts from both those countries, great and powerful communities have grown up and prospered.

Looking nearer home, we have the history of our own town before us. Has not the cry every season been one of the most discouraging description? And are we not steadily advancing in population, commerce, and wealth? Who among us, two years ago, could have foreseen the immense progress Victoria was destined to make in so short a time? The places then occupied by straggling tents, or covered with a dense thicket, are now filled by substantial brick and frame edifices.

Taken all in all, we regard the news from above as but a re-hash of the stories that have been told in former years, and firmly believe that as there are "always two sides to every question," the mines in British Columbia will ere long be found of sufficient richness to support a large population, and thus afford continued employment to our merchants, our mechanics, and our artisans, in supplying the wants of our sister colony.

SUDDEN DEATH.—About 11 o'clock on Sunday night, special constable M. Phillips, while going his rounds on Johnson street, discovered an elderly man lying on the sidewalk, near the Tiger Engine House. Assistance was procured, and the man was carried into the engine house, and Dr. Hall sent for. Upon an examination, it was ascertained that his left side was paralyzed; and notwithstanding every attention shown him, he expired about 2 o'clock on Monday morning. The deceased man's name was Wm. McDonald, a native of Vaudrol, Lower Canada, and aged about fifty years. McDonald was formerly in the employ of G. Vignolo, Johnson street; but lately has been employed in hunting on the islands in this vicinity. The sum of \$95 73 was found upon his person, which was placed in the care of Dr. Trimble. The members of the Tiger Company were untiring in their exertions to render assistance and furnished every article necessary to alleviate the dying man's sufferings, and had not the friends of the deceased come forward yesterday morning, they would have interred the body at their own expense. An inquest was held upon the body yesterday morning by Coroner Dickson, and a verdict rendered that death was caused by apoplexy.

INJURED BY A BEAR.—A little girl, about six years of age, daughter of Mr. Belasco, fruit-dealer, on Johnson street, near Government, was knocked down by a pet grizzly bear, which was tied in a lot in the rear of her father's house, on Saturday evening, and bled freely in the left thigh and back. The child was rescued by its father from the animal's grasp. The bear is said to have been killed.

ARRIVAL OF INDIANS.—A large number of Queen Charlotte Island Indians arrived yesterday in canoes. It is said over one thousand warriors are on their way down from the northwest coast. The jail will certainly have to be enlarged if the report prove true, as these Hyters are the worst vagabonds on the coast, and are always up to some mischief.

A SAVAGE CONUNDRUM.—A friend of ours, who belongs to the Tigers, has handed us the following for publication. The point of the joke is too fine to be easily seen:—*Question.*—Why is the author of the conundrum, which won the first prize at Mrs. Chapman's benefit, like a schoolboy who has forgot his lesson? *Ans.*—Because in the Fire Department of Victoria, there are several wolves (Wolfs) and a good many Tigers.

SALES OF LIVE STOCK.—Messrs. Norris, Cox & Co., yesterday made sales of 84 milch cows with calves at from \$40 to \$65; and some few choice do. at \$85 a pair; 100 head beef-cattle at 8c. per lb. (on the foot); 7 pack-mules, from \$200 to \$250; and sales of other stock to arrive at equally good prices.

H. M. surveying steamer, the Plumper, arrived at Esquimalt about half-past five o'clock last evening, from Nanaimo.

TESTING BOILERS.—Quite a number of gentlemen were present on board the steamer Governor Douglas yesterday, to witness the testing of the strength of her boilers by hydraulic pressure. After the boilers were filled with water, and the fires in the furnaces lighted to warm it and expand slightly the iron, the hydraulic pump belonging to the government was put in motion by six men working it. In a few minutes the pump gauge indicated that there was a pressure of 150 pounds to the square inch on the boiler, and no sign of any defects. The acting Boiler Inspector, Mr. Westgarth, pronounced himself satisfied with the boilers. The travelling community may, therefore, rest content that no danger need be apprehended, so long as the steam gauge of the Gov. Douglas indicates less than 150 pounds of steam. The heaviest pressure of steam, however, ever put on the boilers, when at her highest speed, has never exceeded 90 pounds to the inch; so there is a margin of 60 pounds to spare. A practical engineer informed us that it would take 250 pounds to the inch to burst her boilers. The Douglas is the first steamer that has ever had her boilers tested in our waters, and we hope all the other steamers will do likewise. She has been newly painted; both sides of her hull strengthened with knees bolted in the deck, and in five days will renew her trips from Victoria to Hope, under charge of her old commander, Capt. A. S. Murray.

NEW "CROP."—A professor of the tonorial art in this city, who claims to be a great admirer of the "Benicia Boy," has introduced a new style of cutting hair, which he calls the "Heenan style." It is a close cut, and is a cross between the crop usually accorded a French galley-slave and that of a State Prison convict. The style is decidedly a novel one, and should make the inventor's fortune.

FUNERAL.—The body of Henry Stone, one of the five seamen drowned on Wednesday last, was followed to the grave on Saturday afternoon by a detachment of marines and a large number of sailors from H. M. vessels at Esquimalt. The band of one of the vessels headed the cortege.

FIGHT.—Two sailors had a fight yesterday morning, on Rousset's wharf. After bruising each other's eyes and spilling some blood, they were separated and went off to their homes.

SOLD.—The steamer Wilson G. Hunt has been sold to Capt. Thomas Wright. The amount paid has not transpired.

NEW ADVERTISEMENTS.

Attention! Tigers!

AN ADJOURNED MEETING TAKES PLACE THIS (Tuesday) EVENING, at 8 o'clock. Functinal attendance is requested. C. C. CUSHMAN, Secretary.

NOTICE

To Carpenters and Builders.

TENDERS WILL BE RECEIVED UNTIL SATURDAY, the 16th inst., by Messrs. CAIRN & GRACINI, for certain Masons, Bricklayers, Carpenters, Painters and Tinsmiths' Work necessary to the Erection of a Fireproof Building on Wharf street. Tenders will be received either for the whole work or for a separate order.

The drawings and specifications may be seen at the Office of the undersigned.

The lowest tenders will be accepted, if otherwise satisfactory.

JOHN WRIGHT, Architect, Yates street.

Boots and Shoes.

THE UNDERSIGNED WOULD RESPECTFULLY inform the public of Victoria that he has opened a Shop on Yates street, opposite Wells, Fargo & Co.'s Express Office, where he will keep constantly on hand an excellent assortment of LADIES' and GENTLEMEN'S BOOTS and SHOES.

Boots and Shoes made to order at the most reasonable rates, and in the most satisfactory manner.

N. B.—Repairing done with neatness and dispatch.

FRANCIS BERGAN.

Consignees' Notice.

THE CONSIGNEES BY THE STEAMER "D. L. Clinch" will please take notice that they will commence to discharge cargo THIS MORNING, at 10 o'clock, at the wharf of Samuel Price & Co.

All goods, when landed, will be at the risk of the owners, and if not removed before 5 o'clock, P. M., will be stored at the expense of the owner.

Shippers will please call at the office of the undersigned, pay their freight, and get orders for their goods.

SAMUEL PRICE & CO. Victoria, V. I., June 12, 1860.

BRICKS! BRICKS!! BRICKS!!!

THE UNDERSIGNED BEG TO inform the inhabitants of Victoria, that they have now on hand, for sale, a large quantity of BRICKS, which intending purchasers can have at prices lower than ever before offered on this Island. They are admitted to be, by competent judges who have examined them, the best article of the kind ever manufactured in Victoria. Those who intend building are invited to call and examine, and ascertain the prices, before purchasing elsewhere. Our Yard is directly in front of Mr. Finlayson's residence.

J. J. SOUTHGATE & CO., Wharf street.

POLICE COURT.—Several cases of minor importance, in addition to those given elsewhere, were before Judge Pemberton yesterday. The drunks received the usual sentence of five shillings fine or six hours imprisonment; and the misdemeanors were discharged with a reprimand.

THREATENING LIFE.—John Phillips was on Sunday given in charge of Sergeant Weihe, by H. Pascard, for being drunk and disorderly, and threatening to take his (Pascard's) life. Judge Pemberton fined him £2, or in default of payment, 10 days' imprisonment.

THE "LAWSON."—A suit will be commenced against this vessel in the Supreme Court by the Harbormaster, on several points connected with her late voyage, among which are: bringing no clearance papers, and having no medicine chest on board.

TRYING TO RESCUE A PRISONER.—"Bob," a Fort Rupert Indian, was arrested on Sunday for attempting to rescue a prisoner, for which offence he was sentenced to one month's imprisonment, and to have his head cropped.

Jas. Tiffany was arrested on Sunday, charged with being drunk, and on the way to the station-house resisted the officers. He was fined 20s., and in default of payment, one week's imprisonment.

AUCTION SALE.—J. A. McCrea will sell at auction, this day at 11 o'clock, the household furniture in the house formerly occupied by Bishop Hills, on Fort street.

ON THE BERTH.—The Leonidas, an American clipper-ship, is on the berth at Hongkong for this port.

SHIPMENT OF TREASURE.—Wells, Fargo & Co. shipped, per Panama, on Saturday, \$48,192 in gold dust.

H. M. S. Satellite left yesterday morning for Nanaimo, to take in coal.

THE ST. ANDREW'S SOCIETY OF

VICTORIA

WILL HOLD A SPECIAL MEETING IN

the Police Court Room, by the kind permission

of Justice Pemberton, on Tuesday, June 12th, at 8 P. M.

for the transaction of important business.

His EXCELLENCY GOVERNOR DOUGLAS,

HONORARY PRESIDENT.

His HONOR DAVID CAMERON, Chief Justice,

HONORARY VICE PRESIDENT.

His HONOR JUDGE BEGIBIE,

House of Assembly.

MONDAY, June 11th, 1860.
House met at half past 3 o'clock. Present—Speaker Helmecken, and Messrs. Green, Grease, Cooper, Southgate, Tolmie, Franklin, McDonald, Cary, Waddington, and Foster.

The House went into Committee of the Whole on Mr. Cooper's resolution to consider the Indian question. Mr. Franklin in the chair.

Mr. Cooper stated that the question was a very important one. It appeared to him that this House should consider the course to be recommended to the Governor. He hoped to hear the question discussed, and some measure adopted to remedy the evils we are at present laboring under.

Mr. Helmecken.—The Indians have been removed several times, but each time they came back again. On a previous occasion, when the Indians were sent off, many of the towns-people petitioned against their removal. If we send them home, they may turn around when they get there and warn off the white men that are living on their land. To disarm them would be impossible—they would secrete their weapons, and could be easily supplied with others; in place of the few taken off. It would be unjust to disarm them; you would put these tribes at the mercy of other tribes. I have seen fights lasting a whole day, and a great deal of powder burned, and only two or three wounded. I am totally opposed to disarming them. All Indians who have nothing else to do, should be compelled to work upon the roads, and at small wages too. If you really want to get rid of them, tell them the messes are in the country—that will start them off. Seriously, he thought application should be made to Her Majesty, not to the Duke of Newcastle. The hon. gentleman read a copy of an address to be forwarded to Her Majesty, which set forth the grievance our people labor under, and asked that Indian Agents may be appointed to look after and regulate the movements of the savages.

Mr. Tolmie.—We must seek aid from the Home Government and agree with the hon. member from Esquimaux, that by memorialising Her Majesty, we would receive relief.

Mr. Helmecken moved that His Excellency the Governor be requested to remove the Northern Indians from the point they now occupy near the public roads, to a point where their annoyance would not be so severely felt.

Mr. Cooper thought an onerous duty would be thrown upon His Excellency in asking him to remove them. [Hear, hear.]

Mr. Tolmie.—I think we had better leave the matter with His Excellency.

Mr. Franklin favored the appointment of Indian Agents.

Mr. Helmecken doubted very much if the Legislature had the power to take the Indians under its control. He thought the best way was to make a temporary provision, and rely upon the Home Government to make a permanent provision.

Mr. Waddington said he purposed bringing in a very stringent bill on the subject at an early day, but thought the address to Her Majesty to be very proper.

Committee here rose and reported progress, and asked leave to sit again on the same subject on Monday, 18th inst.

House again went into committee on the bill to improve the breed of live stock, Mr. Waddington in the chair. After a short discussion, the committee rose and reported progress.

House adjourned till Tuesday, at 3 o'clock, P.M.

JAMES E. WOLFE,
Carpenter, Contractor & Builder,
Yates, bet. Government & Broad Sts.

HAVING MADE EXTENSIVE arrangements in San Francisco, I am prepared to negotiate for the erection of

BRICK AND FRAME BUILDINGS, of every description, and having at considerable expense and trouble procured a large and extensive Library of Standard Scientific Architectural Works, some of them entirely new and published in 1859, with numerous elegant and important improvements, and containing, in all,

Over 2,000 Splendid Designs, In English, French, Italian, Norman, American, and all other Styles

—OF—
ARCHITECTURE.

From the humble Cottage to the magnificent Mansion. Among which are Designs of Plain and Superior Brick, Stone, Iron and Frame Store Fronts, Cottages, Villas, City Residences, Colonial and Municipal Edifices, Town Halls, Bank Buildings, Court Houses, and over

30 Superb Designs for Churches, School Houses, Parsonages etc. etc.

From the unpretending Village Chapel to the most Costly and Splendid Temple.

Making in all a Rare and Superb Collection, which, with Original Drawings and Designs, are worthy the attention of those desiring Good and Substantial Buildings.

Also—Having made favorable arrangements in San Francisco, with Founders, Manufacturers and Dealers, I can furnish Cast Iron Fronts, Iron Doors and Shutters, Mantels and Marble Work generally, Grates, &c., at low prices. my20-1m

Dyspepsia, Fever and Ague, Indigestion, Sour Stomach, Heart Burn, Water Brash, Biliousness, Liver Complaint, Acidity, Flatulency, Jaundice, Change of Climate, Sick Headache, Loss of Appetite, Female Complaints, Oppression after Fatigue, and General Debility are rapidly, effectually and surely cured by the OXYGENATED BITTERS.

CALIFORNIA EVIDENCE.
Mokelumne Hill, Cal., June 16th, 1858.

Having suffered for fifteen years with Dyspepsia, in its worst form, and having consulted with the best physicians, and tried every remedy recommended, without relief, I was induced to try the Oxygenated Bitters, and before I had taken one bottle I found myself much better, and continued taking them until I was entirely cured, and now enjoy as good health as I ever did in my life. I take pleasure in recommending them to all who are similarly afflicted.

JAS. LANGSHORE.
The "Oxygenated Bitters" are sold in California by Henry Johnson & Co., Redington & Co., and Chas. Morrill & Co., Sacramento; Rice & Coffin, Marysville; Smith & Davis, Portland, Oregon.

The Angel's Whisper.
[A superstition of great beauty prevails in Ireland, that when a child smiles in its sleep, it is talking with the angels.]
A baby was sleeping,
Its mother was weeping,
For her husband was far on the wild raging sea,
The tempest was swelling,
Round the fisherman's dwelling,
And she cried, "Dermont, darling, oh come back to me."
Her beads while she numbered,
The baby still slumbered,
And smiled in her face as she bended her knee,
"Oh! blessed be that warning,
My child, thy sleep adorning,
For I know that the angels are whispering with thee."

And while they are keeping
Bright watch o'er thy sleeping,
Oh, pray to them softly, my baby, with me;
And say thou would'st rather
They'd watch o'er thy father,
For "I know that the angels are whispering with thee."
The dawn of the morning
Saw Dermont returning,
And the wife wept with joy her babe's father to see,
And closely caressing
Her child with a blessing,
Said, "I knew that the angels were whispering with thee."

WILKES IN THE MARKET.—The celebrated Mr. Wilkes (writes Malone, in his "Diary," just published), about the time when his *North Briton* began to be much noticed, probably when the first fifteen or twenty numbers had appeared, dined one day with Mr. Rigby, and after dinner honestly confessed that he was a ruined man—not worth a shilling; that his principal object in writing was to procure himself some place, and that he should be particularly pleased with one that should remove him from the clamor and importunity of his creditors. He mentioned the office of Governor of Canada, and requested Mr. Rigby's good offices with the Duke of Bedford, so as to prevail on that nobleman to apply to Lord Bute for that place. Mr. Rigby said the Duke had not much intercourse with Lord Bute; neither could it be supposed that his lordship would purchase Mr. Wilkes' silence by giving him a good employment. Besides, he could have no security that the same hostile attacks would not still be made against him by Mr. Wilkes' coadjutors, Lloyd and Churchill, after he had left England. Wilkes assured him that there need not be the least apprehension of that; for that he would make Churchill his chaplain, and Lloyd his secretary, and take them both with him to Canada. The Duke, at Rigby's request, made the application. Lord Bute would not listen to it, and even treated the affair with contempt. When this was told to Mr. Wilkes, he observed to Mr. Rigby that Lord B. had acted very foolishly, and that he might live to lament that he and his colleagues had not quitted England as much as King Charles did that Hampden and Cromwell had not gone to America after the famous representation of the state of the nation in 1641; for now he should never cease his attacks till he had made him the most unpopular man in England. He kept his word.

THE POPULATION OF SAVOY AND NICE.—The census of 1857 for the kingdom of Sardinia gives the following numbers for the population of the districts which form now the subject of general conversation:—Chambery, 155,916; Upper Savoy, 49,276; Maurienne (the cradle of the dynasty), 64,003; Tarantaise, 44,636. These districts together form Southern Savoy, or the province of Chambery. Annecy, 103,753; Faucigny, 103,786; Chablais, 60,193. These districts form together Northern Savoy, or the province of Annecy. Nizza, 124,220; Oueil, 61,525; St. Remo, 69,858. These districts form the province of Nizza. The sum total of the population which the King of Sardinia has left to themselves amounts to 838,436.

DR. ADOLPHUS'
ANTI-RHEUMATIC CORDIAL
—AND—
Health Restorative
IS THE MOST VALUABLE AND UN-
surpassed remedy for Rheumatism and Gout to
be found in the world, or known at present. The
discoverer of the above medicine does claim its in-
fallibility in all cases of Rheumatism and Gout—when
used according to direction—and does offer a reward
of five thousand dollars to any medicine that does
supercede it, and is entirely vegetable. The Doctor is
enabled to offer the above reward on account of his
having used the above medicine for ten years in his
practice, and has never known it to fail in the cure of
the most protracted cases of Rheumatism and Gout,
and withstood all known remedies to the profession.
Doctor Adolphus is known and rightly celebrated
throughout the State, for his cures in Rheumatism,
Gout and Chronic Diseases, and has owing to the con-
tinued urgent efforts of his patients, and through the
desire to help them who are not enabled to see him
personally, or to spend a fortune to get rid of the dis-
ease, which they have contracted in the pursuit of
their daily calling; only this has been able to per-
suade the Doctor to give the above medicine to the
public, and at such terms that every suffering one
should be able to reap its benefits.
As a Health Restorative its value supercedes all the
mineral wealth and riches of California; and is
creating a revolution in the whole treatment of dis-
eases throughout the world.
In secondary and tertiary Syphilis, Scrofula, En-
largement of the Glands, Dropsy, and all Nervous
and Cutaneous Diseases, and the whole train of Chronic
Diseases, which withstand and baffle the skill of
the most excellent and learned physician in the
world, in Chronic Diseases whose very name is a
terror as well to the physician as to the patient, this
medicine has proved to be superior to any in exist-
ence, and has cured in so short a time that they ap-
peared like being abolished by magic influence, and
in fact a few more such discoveries and directions
will not need to keep a lot of useless medicines on
hand, whenever they are prescribed once in a ten
score they have lost through time their properties in
which their value did reside, if there was actually any
in them.
Take this medicine when your digestive organs are
disordered and your blood is impure, it will surely
act on your bowels.
Take this medicine when you have a cold, and it
will make you perspire freely.
Take this medicine when your urinary and absorb-
ing organs are disordered, and it will act on your
kidneys—it penetrates every part of your body,
searches even the most remote and secret recesses of
your system, and removes the disease located there—
it restores healthy action and gives tone to every
organ in the human body—therefore it is the most
deserved the name it bears: HEALTH RESTOR-
ATIVE.
The Doctor, who is averse to all patent medicines,
wishes it to be understood that the above medicine is
no such thing; but that he has, through the intro-
duction of this medicine which he creates and directs
for use, made every sufferer to be his own physician
in the above named diseases.
Thinking it under my dignity to follow the mode
of quacks, by appending certificates of physicians or
private persons, which is too well known can be had
for certain remuneration, or by reputation of friends,
by the mode of boring a man half to death for even
the most worthless trash, I will therefore leave it to
those in want of medicine to inquire personally of
men who have been cured by my medicines of the
above diseases, and who can be found in almost every
city and village throughout the State. I consider
such personal conviction far superior to certificates of
persons that are far from being known to them in
want of medical aid.
But should any one care for written testimonials
or certificates regarding the cures performed by this
medicine, they might call at my office, and I will
show them certificates of true merit, which have been
sent to me voluntarily, without applying for them,
or by boring individuals to get them.
To satisfy the most scrupulous of men, also as a
guarantee to those that have not had the opportunity
of knowing the Doctor by reputation or personally, I
have added to every bottle of the Anti-Rheumatic
Cordial, the certificate, under oath, of one of the most
celebrated analytical chemists in the United States,
that there are no minerals nor poisons contained in
it, and has a very strong action on the human sys-
tem, which it necessarily must have, to overcome the
action of disease of such malignant character.

Who would be Bald or Grey?
Over ten thousand grey heads have been restored to
their original color within the last year, by the use
of **FISHER'S INFALLIBLE HAIR RESTORATIVE.** Magic-
like, it arrests the threatened baldness, returns the
dark brilliant hue, to the grey-headed, and restores
the hair to a fine glossy and healthy appearance;
thus acting in a most complete and safe manner, and
greatest of all toilet-makers—Nature.

throughout the State, for his cures in Rheumatism,
Gout and Chronic Diseases, and has owing to the con-
tinued urgent efforts of his patients, and through the
desire to help them who are not enabled to see him
personally, or to spend a fortune to get rid of the dis-
ease, which they have contracted in the pursuit of
their daily calling; only this has been able to per-
suade the Doctor to give the above medicine to the
public, and at such terms that every suffering one
should be able to reap its benefits.
As a Health Restorative its value supercedes all the
mineral wealth and riches of California; and is
creating a revolution in the whole treatment of dis-
eases throughout the world.
In secondary and tertiary Syphilis, Scrofula, En-
largement of the Glands, Dropsy, and all Nervous
and Cutaneous Diseases, and the whole train of Chronic
Diseases, which withstand and baffle the skill of
the most excellent and learned physician in the
world, in Chronic Diseases whose very name is a
terror as well to the physician as to the patient, this
medicine has proved to be superior to any in exist-
ence, and has cured in so short a time that they ap-
peared like being abolished by magic influence, and
in fact a few more such discoveries and directions
will not need to keep a lot of useless medicines on
hand, whenever they are prescribed once in a ten
score they have lost through time their properties in
which their value did reside, if there was actually any
in them.
Take this medicine when your digestive organs are
disordered and your blood is impure, it will surely
act on your bowels.
Take this medicine when you have a cold, and it
will make you perspire freely.
Take this medicine when your urinary and absorb-
ing organs are disordered, and it will act on your
kidneys—it penetrates every part of your body,
searches even the most remote and secret recesses of
your system, and removes the disease located there—
it restores healthy action and gives tone to every
organ in the human body—therefore it is the most
deserved the name it bears: HEALTH RESTOR-
ATIVE.
The Doctor, who is averse to all patent medicines,
wishes it to be understood that the above medicine is
no such thing; but that he has, through the intro-
duction of this medicine which he creates and directs
for use, made every sufferer to be his own physician
in the above named diseases.
Thinking it under my dignity to follow the mode
of quacks, by appending certificates of physicians or
private persons, which is too well known can be had
for certain remuneration, or by reputation of friends,
by the mode of boring a man half to death for even
the most worthless trash, I will therefore leave it to
those in want of medicine to inquire personally of
men who have been cured by my medicines of the
above diseases, and who can be found in almost every
city and village throughout the State. I consider
such personal conviction far superior to certificates of
persons that are far from being known to them in
want of medical aid.
But should any one care for written testimonials
or certificates regarding the cures performed by this
medicine, they might call at my office, and I will
show them certificates of true merit, which have been
sent to me voluntarily, without applying for them,
or by boring individuals to get them.
To satisfy the most scrupulous of men, also as a
guarantee to those that have not had the opportunity
of knowing the Doctor by reputation or personally, I
have added to every bottle of the Anti-Rheumatic
Cordial, the certificate, under oath, of one of the most
celebrated analytical chemists in the United States,
that there are no minerals nor poisons contained in
it, and has a very strong action on the human sys-
tem, which it necessarily must have, to overcome the
action of disease of such malignant character.

DR. ADOLPHUS'
ANTI-RHEUMATIC CORDIAL
—AND—
Health Restorative
IS THE MOST VALUABLE AND UN-
surpassed remedy for Rheumatism and Gout to
be found in the world, or known at present. The
discoverer of the above medicine does claim its in-
fallibility in all cases of Rheumatism and Gout—when
used according to direction—and does offer a reward
of five thousand dollars to any medicine that does
supercede it, and is entirely vegetable. The Doctor is
enabled to offer the above reward on account of his
having used the above medicine for ten years in his
practice, and has never known it to fail in the cure of
the most protracted cases of Rheumatism and Gout,
and withstood all known remedies to the profession.
Doctor Adolphus is known and rightly celebrated
throughout the State, for his cures in Rheumatism,
Gout and Chronic Diseases, and has owing to the con-
tinued urgent efforts of his patients, and through the
desire to help them who are not enabled to see him
personally, or to spend a fortune to get rid of the dis-
ease, which they have contracted in the pursuit of
their daily calling; only this has been able to per-
suade the Doctor to give the above medicine to the
public, and at such terms that every suffering one
